How do I log into the Rosetta Stone mobile app?

1) Install the Rosetta Stone app from the App Store (for iOS) or Play Store (for Android) on Google Play on your mobile device. Do not open it yet.

3) Create an account and choose the language you want to learn.

4) After authentication beyond the landing page, click on “Launch Rosetta Stone Language Lessons Version 3” then enable the app to open.
5) After automatic route, you will see login screen.

6) Once you logged in for the first time, the next time you will only need to sing in. For this click on “Sign In” then select “Work or School”. Use the username and password you created in the previous step, and type in **bilkent** (if not automatically added) directly in the namespace space.
